OUTDOOR HOMES NEEDED FOR AREA FERAL CATS

Four Paws Pet Center of Colorado to relocate feral cats in danger.

DENVER METRO AREA (December 2009) –Four Paws Pet Center of Colorado (FPPCC) seeks permanent outdoor homes for local feral cats. A substantial feral cat colony at an apartment complex in Denver is being “evicted” from their territory; FPPCC needs barn, garage homes, or any other type of enclosed structure immediately. FPPCC practices trap-neuter-return (TNR) method of population control, it’s unsafe for these cats to return to their territory.

All cats will be vaccinated and spayed/neutered prior to relocation. Interested parties must be willing to feed, water, and have shelter for these cats. In return, properties will benefit by becoming mouse-free, using cats instead of poison that can harm domestic and wild animals.

FPPCC mission is to reduce the number of unwanted cats and dogs, by offering spay/neuter services or referrals in Colorado.

To request feral cats for your barn, please contact Kristin Des Marais at 303-868-2247 or Carol Tudor at 720-940-5083.
